PERSONAL PROFILE

I regard myself as ambitious, highly committed and a professional individual with significant information technology and management experience. I am currently seeking a challenging and rewarding Business Analyst or Consultant role which reflects my proven management, IT analysis and consultations skill and the level of education attained to date. I have confidence in my own abilities, first class interpersonal skills and proven stakeholder management.

With excellent organisational skills I am able to successfully priorities, plan and structure my time efficiently and with an open mind, I am able to analyse and adapt to any given situation. I would welcome the opportunity to demonstrate my skills, together with my willingness to commit to continued professional development.

KEY SKILLS & ABILITIES

- Communication is definitely one of my key strengths; I am very comfortable in both verbal and written presentations of my work, and throughout my education and work experience I have improved this ability.
 - I am hard-working and determined to succeed which I consider key is in a professional role. Furthermore, I would consider myself an assertive person, who is not afraid to put my ideas across, especially when I feel my input can streamline current processes and I feel these attributes benefit me.
 - I have a great understanding of Microsoft Office packages including) MS Project, Visio, PowerPoint, Outlook, Word and Excel) . Through my professional experience, I have worked with many IT and analytics packages including, business analysis and Data Mining (SPSS, R, ithink, SAS, and SIMUL8), web developing (HTML, CSS, JavaScript, PHP, MySQL, AJAX), Business Intelligence (SQL-SAP).
 - I am confident in my ability to work independently as I am proactive in my approach and I can successfully achieve objectives whilst maintaining high standards, being accurate and with excellent attention to detail. Conversely, I find that in some activities I benefit from working as part of a team, and I am not afraid to ask colleagues for their input and constructive criticism if necessary.
-
